Dear Applicant,

Thank you for your interest in the Lander Divisions of Touro College where you can prepare for your future without compromising your personal values and perspectives. Touro's wide range of academic offerings and our cutting edge, career-oriented internship programs are enriched by a challenging array of Judaic Studies courses.

THE LANDER COLLEGE DIVISIONS OF TOURO COLLEGE

The Lander Divisions offers more than 20 majors, concentrations and pre-professional options in such fields as accounting and business, computer science, education/special education, finance, health sciences (occupational and physical therapy and physician assistant), math, pre-law, pre-medicine, pre-dentistry, psychology and speech pathology. Classes are deliberately kept small to allow students as much one-to-one contact as possible. Small classes enable professors to teach and interact with students rather than lecture to halls full of social security numbers. Also, the Honors Tracks in the Health Sciences and the Medical Honors Pathway are collaborative programs with outstanding Touro College graduate school programs which prepare students for careers as physicians, pharmacists, occupational therapists, physical therapists, physician assistants, or speech-language pathologists. Through the Touro College Israel Option, students can earn college credit for a year of intensive Jewish studies in Israel.

The Lander College in Flatbush: The Lander College of Arts and Sciences in Flatbush (LAS), with separate divisions for men and women, offers motivated students a wide array of majors and pre-professional options and honors programs, enabling them to pursue a high quality education in an environment that is supportive of their Torah values, and attentive to their personal goals. Students also complete a set of core courses to develop competencies essential for professional advancement. With its flexible schedule of evening courses for men, and afternoon, evening and Sunday courses for women, the Lander College in Flatbush enables students to concurrently continue their yeshiva or seminary studies. Extracurricular activities and an effective Career Placement office enhance the students' academic experience. The seven-story state-of-the-art campus is located in the heart of Flatbush, adjacent to bus and subway transportation, with many kosher restaurants, shopping, Jewish bookstores and shuls nearby.

Lander College for Women - The Anna Ruth and Mark Hasten School (Manhattan): The Lander College for Women (LCW) enables students to pursue their career aspirations in a vibrant academic environment defined by Torah values. Students can earn their BA or BS degree after completing their choice of major, Core Curriculum studies in Judaic Studies and Humanities. The acclaimed LCW Honors Program offers academically accomplished students an enhanced course of study complimented by extra-curricular lectures and events. LCW's location on the Upper West Side of Manhattan provides students with the opportunity to study and live in student residences in the center of a dynamic Jewish Community and a cultural and educational corridor.

Lander College for Men (Queens): The Lander College for Men (LCM) provides a balanced dual curriculum of intensive Torah study in a vibrant beis medrash combined with rigorous academic studies, in a lively warm and nurturing environment, as well as a convenient evening program for students learning in yeshivos nearby. Faculty are award-winning and dedicated, and graduates are accepted in exceptionally high rates to graduate and professional programs in a variety of competitive fields. LCM's location in a beautiful, recently constructed seven acre campus in Kew Gardens Hills, Queens, one of New York City's most attractive Jewish neighborhoods, with ample playing fields and townhouse style dormitory apartments, provides students an ideal location to learn and study.

If you have any questions or would be interested in visiting our school and sitting-in on classes, please feel free to contact the Office of Admissions at **718.535.9299** or admissions.lander@touro.edu. We look forward to receiving your application soon!

LANDER DIVISIONS ADMISSIONS PROCEDURES & APPLICATION INSTRUCTIONS

Important Information for Application to the Touro College Israel Option

Please Read Carefully

Applicants who are planning to spend a year of post-high school study in Israel at one of the affiliated Israeli institutions through the Israel Option must apply *separately* to both the Lander Division they wish to attend and the desired Israeli institution. Applicants seeking admission to participate in the Touro College Israel Option should carefully follow the Lander Division application instructions and submit the **Application Addendum** along with the regular Lander Division application. The Touro College Israel Option has a firm deadline of **June 15th** for the academic year beginning in the fall of the same year.

Both the Lander Division and the Israeli institutions affiliated with the Touro College Israel Option maintain completely independent application and admissions processes. **Acceptance to one of the Lander Divisions is not a guarantee of admission to any of the Israeli Institutions.** To be eligible to participate in the Touro College Israel Option an applicant *must* be fully accepted (no credit limitations) to one of the Lander Divisions *as well as* accepted to one of the affiliated Israeli institutions. If an applicant is admitted on a probationary or non-matriculated basis, they will not be eligible for TCIO.

Students who are eligible to participate in the TCIO will receive a TCIO enrollment packet. The items in that packet will need to be completed and submitted to Touro College in order to be enrolled in the TCIO.

Financial aid from federal and New York state agencies is generally available for students who are eligible to participate in the Israel Option just as if they were attending one of the New York campuses of Touro College. **Eligibility for financial aid is neither a guarantee of acceptance to Tou-**

ro College nor a guarantee of eligibility for the Touro College Israel Option. Please refer to the Lander Division Financial Aid brochure for additional information.

NO STUDENT WILL BE CONSIDERED AN OFFICIAL TOURO COLLEGE ISRAEL OPTION PARTICIPANT UNTIL:

1. The student receives an acceptance letter indicating that he/she has been fully accepted to the Lander Division to which they applied (Probationary and non-matriculated students are *not eligible* to participate in the Israel Option);
2. The student completes, signs, and returns the *Financial Contract* to participate in the *Touro College Israel Option* along with the required fees and documentation.

Remember, while in Israel the student must register for courses in the fall and spring semesters.

PLEASE REFER TO THE **TOURO COLLEGE ISRAEL OPTION BROCHURE** FOR MORE INFORMATION.

Meningitis Response Form

Students must provide a Certificate of Immunization for Meningococcal meningitis disease OR complete this form.

What is meningococcal disease? Meningococcal disease is a severe bacterial infection of the bloodstream or meninges (a thin lining covering the brain and spinal cord.)

Who gets meningococcal disease? Anyone can get meningococcal disease, but it is more common in infants and children. For some college students, such as freshmen living in dormitories, there is an increased risk of meningococcal disease. Between 100 and 125 cases of meningococcal disease occur on college campuses every year in the United States; between 5 and 15 college students die each year as result of infection. Currently, no data is available regarding whether children at overnight camps or residential schools are at the same increased risk for disease. However, these children can be in settings similar to college freshmen living in dormitories. Other persons at increased risk include household contacts of a person known to have had this disease, and people traveling to parts of the world where meningitis is prevalent.

How is the germ meningococcus spread? The meningococcus germ is spread by direct close contact with nose or throat discharges of an infected person. Many people carry this particular germ in their nose and throat without any signs of illness, while others may develop serious symptoms.

What are the symptoms? High fever, headache, vomiting, stiff neck and a rash are symptoms of meningococcal disease. Among people who develop meningococcal disease, 10-15% die, in spite of treatment with antibiotics. Of those who live, permanent brain damage, hearing loss, kidney failure, loss of arms or legs, or chronic nervous system problems can occur.

How soon do the symptoms appear? The symptoms may appear 2 to 10 days after exposure, but usually within five days.

What is the treatment for meningococcal disease? Antibiotics, such as penicillin G or ceftriaxone, can be used to treat people with meningococcal disease.

Is there a vaccine to prevent meningococcal meningitis? Yes, a safe and effective vaccine is available. The vaccine is 85% to 100% effective in preventing four kinds of bacteria (serogroups A, C, Y, W-135) that cause about 70% of the disease in the United States. The vaccine is safe, with mild and infrequent side effects, such as redness and pain at the injection site lasting up to 2 days. After vaccination, immunity develops within 7 to 10 days and remains effective for approximately 3 to 5 years. As with any vaccine, vaccination against meningitis may not protect 100% of all susceptible individuals.

How do I get more information about meningococcal disease and vaccination? Contact your family physician or your student health service. Additional information is also available on the web sites of the New York State Department of Health, www.health.state.ny.us; the Centers for Disease Control and Prevention, www.cdc.gov/ncid/dbmd/diseaseinfo; and the American College Health Association, www.acha.org.
